

2017 Events

Kind Words

“The Family Music Meltdown concert we played at SXSW was an amazing event to say the least! The lineup of diverse bands was full of energy and kept the crowd going throughout the day. The event was packed the whole time and held at a super cool park in a great amphitheater setting. To top it off, it was during SXSW so the whole town was buzzing! The Not-Its! had a great time and even got to be on Bill Childs' radio show, Spare The Rock, Spoil The Child. Bill even bought us doughnuts and let us shake off some jet lag at his house. We hope to be back in the future to rock Austin again!”

“Koo Koo Kanga Roo has been playing Bill Childs-run events for multiple years in Austin, TX. He does a great job putting on family friendly events that both kids and their parents enjoy equally. Bill's experience and professionalism is much appreciated in what is typically a hectic/stressful week of shows for most artists. His events are an asset to Austin and SXSW because they feature a diverse slate of interesting acts who bring variety to the typical SXSW experience.”

“The Austin Diagnostic Clinic was thrilled to help sponsor LiveMom's Rock and Chalk and Hush, Hush Baby Bash at The Domain II in 2015. Each event, although unique in nature, was fun, energetic, and best of all not overpromised. The entertainers are first class and beloved by the children and adults. We couldn't tell who was having more fun, the kids, adults or the vendors. If you are looking to reach the families of Central Texas, LiveMom events are the way to go! We look forward to many more years partnering with LiveMom.”

- *Rocky Epstein, Marketing and Communications Director, Austin Diagnostic Clinic*

“From the choice of a venue, to his support of independent artists, to his compassion for putting together a truly kid-friendly show, it's an honor to know and work with Bill Childs and his colleagues, and to be a part of their programming. They go above and beyond in looking for ways to support the community and to do so in a way that connects with community interest. The event at PAN AM recreation center was fantastic and something I hope will continue to be offered for our young people!”
